📍 Nagpur, India

SUMMARY

Final-year engineering student with strong systems fundamentals (C, networking, Linux) and hands-on experience building backend and full-stack applications with Node.js, Postgres, and Next.js. Skilled in understanding technologies at a low level and creating clean, maintainable systems without relying on heavy abstractions. Looking for a backend or full-stack role.

PROJECTS

eSelekt Frontend

Worked on the Frontend of eSelekt open elective allocation system

Ritish Das Portfolio

A personal portfolio website to showcase my projects, skills, and experience. Built with responsive design.

Gardener

A json based dom generator, uses recursion to generate a full dom tree of elements along with its styles and attributes, can be used in small projects where react is overkill.

SKILLS

TypeScript

C

Node.js

REST APIs

WebSockets

SQL(Postgres)

MongoDb

Linux

Networking (TCP/HTTP)

System Design

React.js

Next.js

SSR/CSR/ISR

Component Architecture

Git

Nix

EDUCATION

B.Tech in Computer Science And Engineering

KDK College of Engineering

⌚ 2022 - 2026

📍 Nagpur, Maharashtra

ACHIEVEMENTS

1st prize in Code Combat

This was an intercollege problem solving DSA competition organised in Raisoni Institute Of Engineering

1st prize in Techsphere

This was a three round competition technical quiz, code debugging,technical interview organised by coding club kdkce.

2nd prize in CodeFiesta

This was a 3 round Inter College competition quiz, pseudocode, problem solving , organised in KDKCE, Nagpur

EXPERIENCE

Website Head

Picsel KDKCE

⌚ July 2025 – Present

📍 Nagpur

- Leading our website team along with other leaders.
- Our team is responsible for the picsel website.

Joint Technical Head

Coding Club KDKCE

⌚ Aug 2024 – April 2025

📍 Nagpur

- Conducted many events with our team with 300+ participants
- Organized inter-college programming contests and hackathons.
- Helped peers improve problem-solving and competitive programming skills.

HIGHLIGHTS

- Strong systems fundamentals (C, networking, Linux)
- Can design and build backend systems end-to-end
- Fast learner with deep reasoning over frameworks
- Experience building real projects + low-level internals
